UNISON News - Friday, 23rd October 2009

Following the meeting ...

Thanks to all those workers who came to the meetings on Tuesday. I have now written to Robert Moores (attached) and am expecting an urgent response to your issues, some of which I must say shocked me.

In the meantime, if you have **ANY** further problems, contact me immediately [or phone the branch office and talk to Dave]. UNISON is not prepared to let these issues drop nor will we accept any more bullying and harassment.

I've included a membership form overleaf. Please sign up your colleagues - every non-member makes us that bit weaker collectively!

Elisa McDonagh

Chair, Corporate Resources Stewards Committee

POSTAL DISPUTE

We are taking every opportunity to remind ALL members NOT to do the work of our colleagues in Royal Mail during their industrial dispute and strike action. Postal workers have always been very sympathetic to UNISON on the few occasions we have had to resort to strike action.

If you are asked to undertake work that is not normally part of your job and is clearly designed to lessen postal workers' actions, please inform the branch office immediately 01629 582266.
